

Class 350/2

Train Operator

London Midland

Vehicle Qty	192
Consist	48 x 4-Car
Traction Type or Power Supply Type	25kV ac OHL operation
Max Speed	100 mph

The Class 350/2 are Porterbrook's first vehicles from the German supplier Siemens Transportation. The design is virtually the same as the 350/1 but features 3+2 seating and quieter Faiveley air conditioning. The units have only 2 motored vehicles but these have 4 motors each giving an installed power of 2,000 kW in a 4-Car unit. Vehicles are 20 metres long and feature air conditioning, CCTV Passenger Information System and are fully RVAR compliant.
